

## Ian Stepler

Ian is President of Stepler Farms in Miami, Manitoba. He is in partnership with his three brothers and their father. They manage a 3500-acre grain farm, 500 head of purebred Charolais cattle and Ian manages 1500 beehives. Ian is 38 now with a wife and 5 children.

Ian runs a self-sustaining honey operations, producing enough queens and bees annually to avoid purchasing or imported stock. Annually, the farm produces 200,000 lbs. of honey. Ian is an advocate and practices single brood box colony management and winters in singles. Ian has shares his farm experience and offers advice through social media and their website at:
